PAST CLIENTS

I've been in the technology field for 25 years, taken a lot of training, facilitated a lot of training, been certified by Microsoft, Scrum Alliance and others. Agility Consulting's delivery of the SAFe Agile material is second to none. Always a pleasure to learn from someone with mastery of the content AND real world experience in its application. Highly recommend! – Paul Wright, Professional Student (Google Review)

(Agility Consulting) was able to provide a succinct and an easily digestible view of our pain points through her assessment. These were things like capacity and prioritization that we knew plagued our organization and were previously unable to articulate... – Elizabeth Shirkey, VP at South State Bank

I have been part of several trainings and agile round table discussions that (Agility Consulting) has facilitated and have found (them) to be very knowledgeable and thorough. (Agility Consulting) is well-versed in Scrum, SAFe, and LeSS and would be an excellent resource for any organization looking to implement or scale their Agile practice. – Ryan Fillmann, Digital Management, LLC

- ✓ American Express
- ✓ Capital One
- ✓ Eli Lilly
- ✓ Ford
- ✓ New Management Services
- ✓ Proctor and Gamble
- ✓ South State Bank
- ✓ USAA

Sample Outcomes:

- The enhanced SAFe digital transformation **increased the completion of planned work by 65%** with iterative development over perfect project execution. (Eli Lilly)
- The newly implemented digital transformation increased their organizational agility by 100% and **reduced quality analysis bottlenecks by 75%**. (New Management Services)
- After experiencing slow delivery times and significant communication gaps, the newly implemented SAFe® approach **doubled the speed of releases and increased business value delivered by 80%** over three months. (South State Bank)
